Retransmitted with compliments -

The population of the City of Mysore is 150,540 and it is provided with five major medical institutions, and 14 dispensaries It is, therefore, to be admitted that there is adequate medical aid for the people of the Mysore City inclusive of those in the employ of the Municipality I have carefully gone through the reasons adduced by the President of the City Municipal Council, Mysore, for the sanction of a mobile medical unit These reasons fail to convince me of the need for a mobile medical unit in Mysore My opinion conveyed in a note in this file dated 28-12-1942 was based on my personal knowledge of facilities for medical aid in the several cities of Europe and after consulting the municipal authorities of Calcutta, Bombay and Madras and I am unable to change it

Senior Surgeon

10-5-1943

For orders of the above opinion may be accepted & conveyed to the President, Mysore city municipal Council

Rc 230-9 / 2643

Retransmitted with compliments - Rc

18) The cost of medicines required for the Mobile Medical Unit in Mysore City will be met from the provision made for "Europe Medicines" in the Budget of the Medical Stores

19) As the present sanctioned number of Assistant Surgeons is limited and insufficient even to meet the normal demands of the Medical Department, it is not possible to post a hand from the sanctioned cadre to the charge of the Mobile Medical Unit. I request that if the scheme is sanctioned, sanction may also be accorded to the appointment of the following staff temporarily for a period of one year -

1	One Assistant Surgeon III Class on Rs 80-10-120	(to be met by Government)
2	One driver on Rs 20-1-25	To be met by
3	One cleaner on Rs 12/-	the Municipal
4	One compounder on Rs 20-3/5-30	Council Mysore

No MS - 68 204/42

Dated 3rd April 1943

From

B S RAGHAVENDRA RAO Esq M A (Hons)

PRESIDENT CITY MUNICIPAL COUNCIL,

MYSORE.

To

C Narayanaswamy Naidu, Esq ,B A ,B L ,
Secretary to Government, Law Department,
Bangalore

Sir,

With reference to your letter No L 7326/Ml 11-42-72, dated 28th January 1943 regarding the starting of a Mobile Medical Unit in this City as resolved by the Municipal Council in their resolution No 64, dated 29th August 1942, I have the honor to state that I discussed this matter again with the Senior Surgeon and the Minis

P T O

Minister for Local-Self Government and to resubmit the papers for the kind sanction of Government in view of the following facts

2 The starting of a Mobile Medical Unit is primarily intended to afford relief to the employees of the Municipality, particularly the sweepers and scavengers and officials who cannot avail themselves of the facilities available in the several dispensaries and hospitals owing partly to their ignorance and partly to the fact that the dispensary-hours clash with their working hours and in the case of sweepers where both the husband and wife are employed and if the husband or wife is sick the other person has to take leave to go to the hospital and if the sickness continues for some days even this would be difficult and if both fall ill there will be none to go to the Hospital They could not also pay for conveyances to go to the dispensaries By having, therefore, an Itinerant dispensary, it will be possible to render medical aid to such suffering members of our staff and their families

families <u>at their homes</u> Though this scheme is apparently a source of extra cost to the Municipality, the Municipality feels that this small extra cost will be more than set off by the increased efficiency of their staff that would result from the benefits of the same Further as one of the largest employers in the City, they consider that it is their duty to provide their staff with this convenience They also feel that a healthy and contented staff will be able to turn out better work, than otherwise In this connection, I may state that preliminary attempts in this regard in 1937 have shown that the introduction ofa permanent Itinerant Medical Unit is a useful necessity as it will help to maintain in a satisfactory condition the health of the sweepers and incidentally also that of the persons residing close to them in the slums of the City During epidemics, such units could be a very great blessing indeed Again, the doctor in charge of the Medical Unit, besides his Itinerant duties, will also work as an Assistant to the Health Officer and

and could relieve the latter officer of much of his routine duties which are now engaging his time and attention and which really do not require an Officer of this status to attend to If, therefore this officer is available for the routine work the Health Officer could find more time for development work and other more important activities of his Department

3 Moreover, the Municipal Council have resolved to undertake an intensive Health Propaganda with the use of a loud-speaker Van in which talks are proposed to be given every week in every mohalla on health matters The proper supervision of this would also require an assistant to the Health Officer Taking all points, therefore, into consideration, it is felt that the introduction of an Itinerant Dispensary would be of great help from every point of view A Van which is very well suited for carrying medicines and personnel is also proposed to be purchased as per

per Council Resolution No 248, dated 31st October 1942 noted below

"248 Health Officer's note together with office note, dated 5th October 1942, soliciting sanction to the purchase of the lorry and to appoint a staff thereto at a cost of Rs 1,350/- plus haulage charges for the lorry and Rs 268/- for the current year towards the staff, the provision thereof being met out of the allotment of Rs 3,000/- made in the Budget under the head E 3(a)"

RESOLUTION "The A R P Van referred to in the President's note which is quite suitable for the above purpose may be purchased The establishment referred to, viz Driver on Rs 20-1-25, cleaner on Rs 12/- and one compounder is also sanctioned It is presumed that the pay of the Sub Assistant Surgeon or Assistant Surgeon will be met by Government"

4 I therefore, request you kindly to place the matter before Government for reconsideration and obtain early orders sanctioning the above resolution and according approval to

i Purchase of the Van now purchased by the A R P at a cost of Rs 1,350/- for locating the Itinerant Dispensary as it is quite suited and is also already equipped for use for such a purpose

ii Sanction of a staff to the above as under
a)One driver on Rs 20-1-25, (b) One cleaner on Rs 12/-
c)One compounder (scale as in the Medical Department)

iii Request the Senior Surgeon to post an Assistant Surgeon of the last grade for this dispensary

5 The Municipality will, as usual, bear all other charges except the pay of the Doctor and cost of Europe medicines from the provision of Rs 3,000/- made for the purpose in the current year and will make also suitable provision for the same in the Budget of the coming year

Early orders are solicited

I have the honour to be,
Sir,
Your most obedient servant,

Por Neelakandan Rs
